AJ

(Character's Initials)

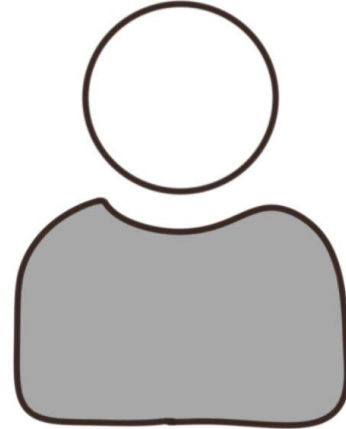

What has changed?

I have to work more hours at my job because I provide an essential service. I force all my public transportation riders to wear masks as they enter and we have fewer seats, causing me to make more trips.

(CARD FRONT 2)

AM

(Character's Initials)

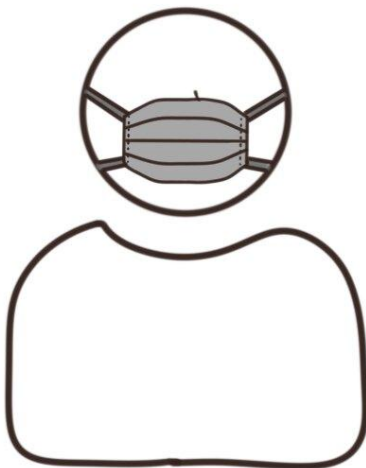

What has changed?

I have to work more hours at my job because my restaurant is an essential service to the community. New social distancing measures and restrictions are causing my business to be not as profitable.

(CARD FRONT 3)

BD

(Character's Initials)

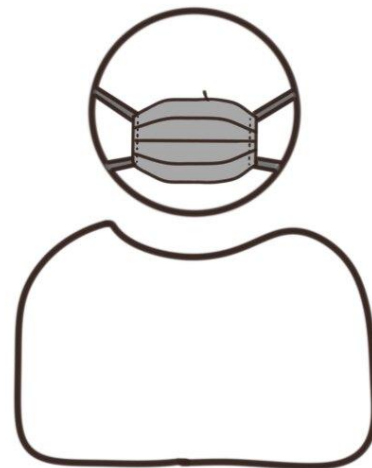

What has changed?

Our law office has really limited the amount of people in the office. Work has not slowed down, it just means I have to do some of it at home now. I eat out more than I use to, because the grocery store scares me. I just try to do my part and wear my mask.

(CARD FRONT 4)

BF

(Character's Initials)

What has changed?

I work from home now and wear a mask all the time to protect me. I try not to let the pandemic mess up my social life too much. I still see most of my friends as long as they are wearing a mask, too.

(Character's Initials)

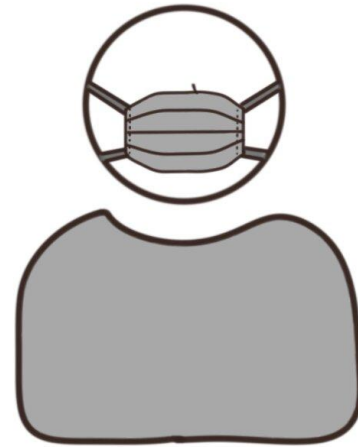

What has changed?

It has been really hard being a stay-at-home parent. Now that the children are doing school at home and my spouse has to work from home, it has added a lot of stress. We have to schedule everything around our limited electronic devices. One positive thing is we interact more as a family.

(CARD FRONT 6)

CN

(Character's Initials)

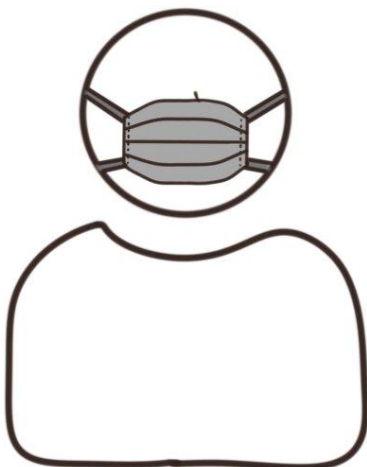

What has changed?

I have to work more hours at my job because I am an essential worker. My daycare facility has had to reduce the number of children we can take, causing us to lose money. My family and my business are not able to lose any more income. I would find it difficult to quarantine.

(CARD FRONT 7)

DJ

(Character's Initials)

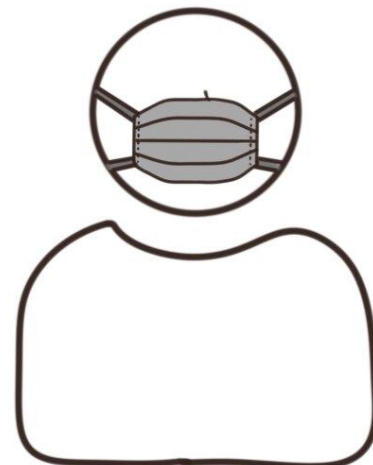

What has changed?

I lost my job during the pandemic, and I have not been able to find work. It has been really hard to reach out to extended family to see if they are able to help. I wear a mask, but I need to interact with people in order to make sure there is food on the table.

(CARD FRONT 8)

DM

(Character's Initials)

What has changed?

It was really easy for me to transition to work at home. I wear a mask, but I really need to see my friends and family. We have gotten creative in order to see each other outside while maintaining social distancing. I would find it difficult to quarantine because I am a caregiver to my elderly parents.

(Character's Initials)

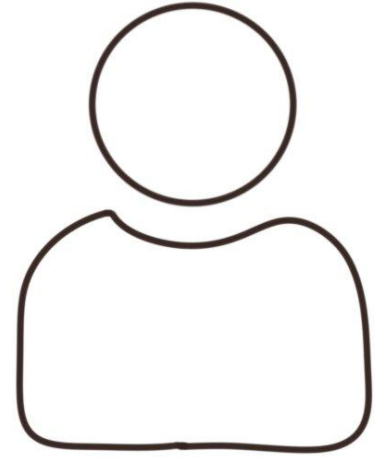

What has changed?

I wear my mask and do my part. I am not comfortable really providing more information than that. Too many of my friends have been scammed and had their identity stolen. The testing for COVID-19 scares me and I do not like going to the doctors.

(CARD FRONT 10)

EG

(Character's Initials)

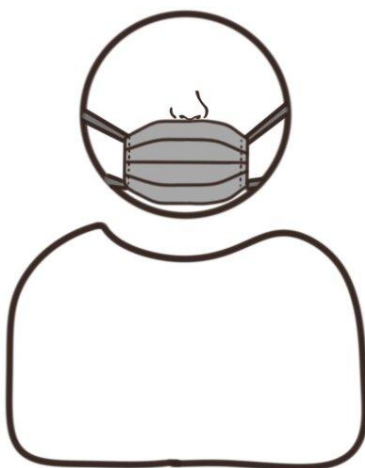

What has changed?

I work as an underwriter at a home loans company. I have had friends that have heard that some people wearing mask still got COVID-19, so I stopped wearing mine. I still social distance though and try to keep all my interactions with people outside and for short periods of time.

(CARD FRONT 11)

FN

(Character's Initials)

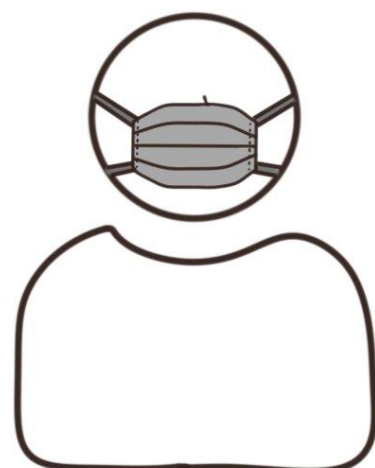

What has changed?

I now teach from a computer from home. Some students I see and hear from often while others I have not. I really worry about my students and their well-being during the pandemic it is also hard to teach while my own kids are at home, too.

(CARD FRONT 12)

FT

(Character's Initials)

What has changed?

The housing market has been really busy lately. Everyone seems to be in a rush to buy and sell right now. I know that this market will probably change very quickly, and if I am not selling houses I am not making money. I really am not able to afford getting tested or quarantining right now.

I am my family's main source of income. I need to be able to work in order to make sure there is food on the table. Having my business shut down earlier this year for a disease I personally do not know anyone who has gotten is frustrating. I do not think it is necessary to quarantine.

(CARD FRONT 14)

What has changed?

I am a person who is extremely worried about the pandemic. I only see people at my store or friends outdoors. If I had the money to shut down my business for a few weeks I would, but if I do not work I do not eat. Quarantining would be very difficult.

(CARD FRONT 18)

IP

(Character's Initials)

(CARD FRONT 19)

JP

(Character's Initials)

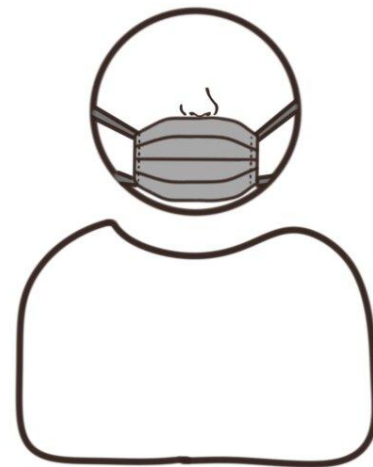

What has changed?

I am trying to do my part during this pandemic. I do find it hard to tell family and friends I am not able to see them as often when my job forces me to interact with a lot of people. I would personally find it hard to quarantine because my manager has made it clear that we all can be replaced.

(CARD FRONT 20)

(Character's Initials)

What has changed?

(Character's Initials)

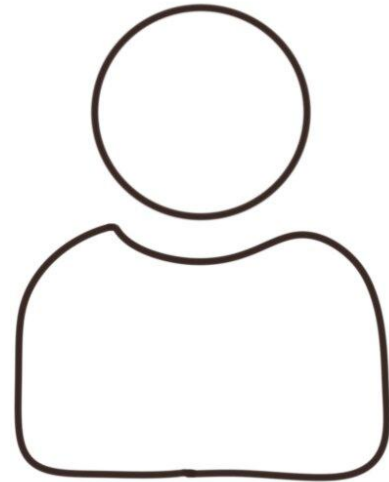

What has changed?

As a motivational speaker, I keep my distance from others when I speak and have moved the audience farther back. I try to have as many of my speaking engagements outside as well. So far, I feel fine and have had no symptoms, so I feel no need to be tested.

(CARD FRONT 23)

(Character's Initials)

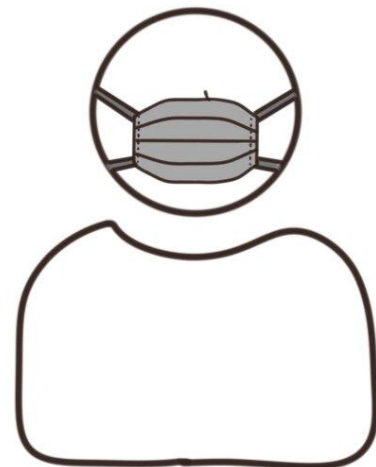

What has changed?

As a journalist covering the news, it seems all we can talk about is COVID-19 and what we are figuring out about it. I was surprised how many people do not believe the news we are reporting on about the pandemic. I just try to do my job safely and try to help inform others, too.

(CARD FRONT 24)

Lost my job during the pandemic. I honestly do not know how I am going to pay my rent or bills during this time. Last week I went to a food bank to get food and waited 3 hours in line.
